SAVEGREEN

Commercial and Industrial

Direct Install

The Direct Install program is designed for small- and mid-sized companies with an average annual monthly electricity demand that does not exceed 200 kilowatts. This program makes upgrading to high efficiency equipment a budget-friendly pathway to saving energy and money, and reduce your carbon footprint.

Highlights include:

- ▶ **Generous rebates for retrofit costs.**
- ▶ **Incentive levels are based on the level of comprehensiveness of a project.**
- ▶ **0%** APR On-Bill Repayment Program (OBRP) for qualified customers.**

Energy Management

The Energy Management program targets energy savings for existing commercial and industrial facilities. Using retro-commissioning and strategic energy management strategies, it provides a holistic approach to improving the overall operation and energy performance of a building's systems.

Prescriptive and Custom

This program provides individual energy-efficiency rebates for the installation of high-efficiency equipment or technologies and special projects for existing commercial, industrial and multifamily customers — to help you achieve substantial energy savings.

Highlights include:

- ▶ **Rebates to reduce the cost of approved high-efficiency equipment.***
- ▶ **An On-Bill Repayment Program**
 - ▷ **Prescriptive: 0%* APR up to \$150,000.**
 - ▷ **Custom: 0%* APR up to \$250,000.**
- ▶ **An open pool of contractors.**

Engineered Solutions

This program for larger, more complex facilities, provides customers that are public service entities — including municipalities, universities, schools, hospitals and healthcare facilities — and non-profits entities, with customized engineering and commissioning services.

Highlights include:

- ▶ **100% incentive for an up-front ASHRAE level II or III audit.**
- ▶ **SAVEGREEN buys down the simple payback of the recommended energy-efficiency project cost by up to six years.**
- ▶ **The remaining costs may be funded through SAVEGREEN's On- Bill Repayment Program at 0%* APR.**
